Notes to the Condensed Consolidated Financial Statements

June 30, 2015

(Expressed in U.S. Dollars)

(unaudited)

1. Nature of Operations and Continuance of Business

The accompanying interim consolidated financial statements of Pacific Green Technologies Inc. (the "Company") should be read in conjunction with the consolidated financial statements and accompanying notes filed with the U.S. Securities and Exchange Commission in the Company's Annual Report on Form 10-K for the fiscal year ended March 31, 2015. In the opinion of management, the accompanying consolidated financial statements reflect all adjustments of a recurring nature considered necessary to present fairly the Company's financial position and the results of its operations and its cash flows for the periods shown.

The preparation of these consolidated financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported. Actual results could differ materially from those estimates. The results of operations and cash flows for the periods shown are not necessarily indicative of the results to be expected for the full year.

These consolidated financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders and note holders, the ability of the Company to obtain necessary equity financing to continue operations, and ultimately the attainment of profitable operations. As at June 30, 2015, the Company has not generated any revenues, has a working capital deficit of \$9,979,272, and has an accumulated deficit of \$54,541,919 since inception. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

2. Significant Accounting Policies

(a) Principles of Consolidation

These consolidated financial statements and related notes are presented in accordance with accounting principles generally accepted in the United States, and are expressed in U.S. dollars. These consolidated financial statements include the accounts of the Company and the following entities:

Pacific Green Technologies Limited (PGT Limited)	Wholly-owned subsidiary
Pacific Green Energy Parks Limited ("PGEP")	Wholly-owned subsidiary
Energy Park Sutton Bridge Ltd. ("EPSB")	Wholly-owned subsidiary of PGEP
Pacific Green Technologies Asia Limited ("PGTA")	Wholly-owned subsidiary of PGEP
Pacific Green Technologies China Limited ("PGTC")	Wholly-owned subsidiary of PGTA

All inter-company balances and transactions have been eliminated.

(b) Financial Instruments

ASC 820, "Fair Value Measurements and Disclosures" requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

2. Significant Accounting Policies (continued)

(b) Financial Instruments (continued)

The Company's financial instruments consist principally of cash, VAT receivable, loan receivable, amounts due from and to related parties, accounts payable and accrued liabilities, loan payable, convertible debentures, and note payable. With the exception of long-term note payable, the recorded values of all other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

The following table represents assets and liabilities that are measured and recognized at fair value as of June 30, 2015, on a recurring basis:

	Level 1 \$	Level 2 \$	Level 3 \$	Total gains (losses) \$
Cash	318,165	–	–	–
Derivative liabilities	–	–	–	(1,057,818)
Total	318,165	–	–	(1,057,818)

During the period ended June 30, 2015, the Company recognized a loss on change in fair value of derivative liabilities of \$1,057,818.

(c) Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its consolidated financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

3. Acquisition of Pacific Green Technologies Asia Limited and Pacific Green Technologies China Limited

On June 30, 2015, the Company entered into a share purchase agreement whereby the Company acquired 100 common shares of PGTA, representing 100% of the issued and outstanding shares, for consideration of \$1. This formalized the Company's structure of corporate entities for conducting business in Asian markets. PGTA is the sole shareholder of PGTC.

In accordance with ASC 805, "Business Combinations", the purchase agreement was deemed a business combination for accounting purposes. At the date of acquisition, the fair values of the assets and liabilities of PGTA and its wholly owned subsidiary PGTC consisted of the following:

	\$
Cash	50,064
Goodwill	126,782
Accounts payable and accrued liabilities	(23,865)
Due to related parties	(152,980)
Total purchase price	1

As PGTA and PGTC were dependent on the Company for funding prior to acquisition and were at non-arms' lengths with the Company, the Company recorded an impairment of goodwill of \$126,782 as a cost of acquisition.

In some cases, you can identify forward-looking statements by terminology such as "could", "may", "will", "should", "expect", "plan", "anticipate", "believe", "estimate", "predict", "potential" or the negative of these terms or other comparable terminology. These statements are only predictions and involve known and unknown risks, uncertainties and other factors that may cause our or our industry's actual results, levels of activity, performance or achievements to be materially different from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements.

Although we believe that the expectations reflected in the forward-looking statements are reasonable, we cannot guarantee future results, levels of activity, performance or achievements. Except as required by applicable laws, including the securities laws of the United States, we do not intend to update any of the forward-looking statements so as to conform these statements to actual results.

Our unaudited consolidated financial statements are stated in U.S. dollars and are prepared in accordance with generally accepted accounting principles in the United States. The following discussion should be read in conjunction with our financial statements and the related notes that appear elsewhere in this quarterly report.

As used in this current report and unless otherwise indicated, the terms "we", "us", "our" and "our company" mean Pacific Green Technologies Inc., a Delaware corporation, and our wholly owned subsidiaries, Pacific Green Technologies Limited, a United Kingdom corporation, Pacific Green Energy Parks Limited, a British Virgin Islands corporation, and its wholly owned subsidiary, Energy Park Sutton Bridge, a United Kingdom corporation, unless otherwise indicated.

Corporate History

Our company was incorporated in Delaware on March 10, 1994, under the name of Beta Acquisition Corp. In September 1995, we changed our name to In-Sports International, Inc. In August 2002, we changed our name from In-Sports International, Inc. to ECash, Inc. In 2007, due to limited financial resources, we discontinued our operations. Over the course of the last five years, we have sought new business opportunities.

On June 13, 2012, we changed our name to Pacific Green Technologies Inc. and effected a reverse split of our common stock following which we had 27,002 shares of common stock outstanding with \$0.001 par value.

Effective December 4, 2012, we filed with the Delaware Secretary of State a Certificate of Amendment of Certificate of Incorporation, wherein we increased our authorized share capital to 510,000,000 shares of stock as follows:

- 500,000,000 shares of common stock with a par value of \$0.001; and
- 10,000,000 shares of preferred stock with a par value of \$0.001.

The increase of authorized capital was approved by our board of directors on July 1, 2012 and by a majority of our stockholders by a resolution dated July 1, 2012.

Historical Business Overview

On May 1, 2010 we entered into a consulting agreement with Sichel Limited. Sichel has investigated new opportunities for us and has subscribed for new shares of our company's common stock. The consulting agreement entitles Sichel to \$20,000 per calendar month. With an effective date of March 31, 2013, the consulting agreement, along with all amounts owed to Sichel, were assigned to Pacific Green Group Limited ("PGG"). As at June 30, 2015, we owed Sichel \$nil and we owed PGG approximately GBP295,438, US\$1,076,399, and Cdn\$4,352,768. Pursuant to the terms of the consulting agreement, if we are unable to pay the monthly consulting fee, PGG may elect to be paid in shares of stock, and if we are unable to make payments for more than six months in any 12 month period, PGG has the right to appoint an officer or director to the board, which right has not been exercised at this time.

New Strategy

Management, assisted by PGG, has identified an opportunity to build a business focused on marketing, developing and acquiring technologies designed to improve the environment by reducing pollution. To this end we entered into and closed an assignment and share transfer agreement, on June 14, 2012, for the assignment of a representation agreement and the acquisition of a company involved in the environmental technology industry.

The assignment and share transfer agreement provided for the acquisition of 100% of the issued and outstanding shares of Pacific Green Technologies Limited, formerly PGG's subsidiary in the United Kingdom. Additionally, PGG assigned to our company a ten year exclusive worldwide representation agreement with EnviroTechnologies Inc., (formerly EnviroResolutions, Inc.), a Delaware corporation, to market and sell EnviroTechnologies' current and future environmental technologies. The representation agreement entitles PGG to a commission of 20% of all sales (net of taxes) generated by EnviroTechnologies. Pursuant to the terms of the assignment and share transfer agreement, all rights and obligations under the representation agreement have been transferred to our company. We currently anticipate that sales under the representation agreement will be our sole source of revenue for the foreseeable future. We had intended to complete an acquisition of EnviroTechnologies, as this would have been a logical step in our development. However, as discussed herein, we have settled with EnviroTechnologies as an alternative.

Both Sichel and PGG are wholly owned subsidiaries of the Hookipia Trust. PGG's wholly owned subsidiary was Pacific Green Technologies Limited. As a result, we acquired Pacific Green Technologies Limited from PGG. Sichel is a significant shareholder of our company and also provides us with consulting services. The sole director of Sichel is also the sole director of PGG. Further, PGG is a significant shareholder of EnviroTechnologies.

The assignment and share transfer agreement closed on June 14, 2012 via the issuance of 5,000,000 shares of our common stock as well as a \$5,000,000 promissory note to PGG. We have consequently undertaken the operations of Pacific Green Technologies Limited and PGG's obligations under the representation agreement.

Full consideration contemplated by the assignment and share transfer agreement was \$25,000,000 satisfied through the issue of 5,000,000 new shares of our common stock at a price of \$4 per share with the balance of \$5,000,000 structured as a promissory note over the next five years as follows:

- June 12, 2013, \$1,000,000 (which remains outstanding and has been rolled over to the following payment date);
- June 12, 2014, \$1,000,000 (which remains outstanding and has been rolled over to the following payment date);
- June 12, 2015, \$1,000,000 (which remains outstanding and has been rolled over to the following payment date);
- June 12, 2016, \$1,000,000; and
- June 12, 2017, \$1,000,000.

Under the terms of the promissory note, the loan repayments specified above shall not exceed the amount we earn under the terms of the representation agreement. If we are unable to meet the repayment schedule set out above, PGG will have the option to either roll over any unpaid portion to the following payment date or to convert the outstanding amount into new shares of our common stock. However, the entire amount of the promissory note is due upon the maturity date on the fifth anniversary. The promissory note is unsecured.

The total consideration of \$25,000,000 was a purchase price not determined under U.S. GAAP, and both the \$25,000,000 total price and the deemed price of \$4 per share does not represent the fair value of the stock issued or a value used in accounting for the acquisition. The number of shares issued and the terms of the promissory note were negotiated between the parties and are intended to represent full consideration for the acquisition of Pacific Green Technologies Limited and the representation agreement.

Other Business Matters

Effective December 18, 2012, we entered into a non-executive director agreement with Dr. Neil Carmichael, wherein Dr. Carmichael will receive compensation of \$1,000 per year for the term of the agreement and was granted options to purchase up to 62,500 shares of common stock at an exercise price of \$0.01 per share of common stock. The options will terminate the earlier of 24 months, or upon the termination of the agreement and Dr. Carmichael's engagement with our company. The director agreement and related options are in the process of being renewed. As of the date of this quarterly report, the options issued to Dr. Carmichael have not been exercised.

We issued an aggregate of 1,765,395 common shares to 47 shareholders.

On April 25, 2013, we entered into and closed share exchange agreements with certain shareholders of EnviroTechnologies. Pursuant to the terms of the share exchange agreement, we agreed to acquire 6,682,357 issued and outstanding common shares of EnviroTechnologies from the shareholders in exchange for the issuance of 668,238 shares of common stock of our company. We issued an aggregate of 668,238 common shares to 20 shareholders.

On May 15, 2013, we entered into and closed a stock purchase agreement with all five of the shareholders of Pacific Green Energy Parks Limited ("PGEP"), a company incorporated in the British Virgin Islands. PGEP is the sole shareholder of Energy Park Sutton Bridge Limited, a company incorporated in the United Kingdom. PGEP is developing a biomass power plant facility and holds an option to purchase the real property upon which the facility will be built.

Pursuant to the stock purchase agreement, we agreed to acquire all of the 1,752 issued and outstanding common shares of PGEP from the shareholders in exchange for:

1. a payment of \$100 upon execution of the stock purchase agreement, which has been paid by us;
2. \$14,000,000 paid in common shares in our capital stock at a deemed price at the lower of \$4 per share or the average closing price per share of our capital stock in the ten trading days immediately preceding the date of closing of the stock purchase agreement, which have been issued by us;
3. \$3,000,000 payable in common shares of our capital stock at a deemed price at the lower of \$4 per share or the average closing price per share of our capital stock in the ten trading days immediately preceding the date upon which PGEP either purchases the property or secures a lease permitting PGEP to operate the facility on the property, which has not yet occurred; and
4. subject to leasing or purchasing the property and PGEP securing sufficient financing for the construction of the facility, \$33,000,000 payable in common shares of our capital stock at a deemed price at the lower of \$4 per share or the average closing price per share of our capital stock in the ten trading days immediately preceding the date that PGEP secures sufficient financing for the construction of the facility, which has not yet occurred.

All consideration from our company to the shareholders has been and will be issued on a pro-rata, pari-passu basis in proportion to the respective number of shares of PGEP sold by each respective shareholder. On May 15, 2013, pursuant to the stock purchase agreement, we issued an aggregate of 3,500,000 common shares, at an agreed upon deemed price of \$4 per share, to the five shareholders.

Pacific Green Energy Parks Limited and its wholly owned subsidiary, Energy Park Sutton Bridge, are now subsidiaries of our company.

On May 17, 2013, we entered into a debt settlement agreement with EnviroTechnologies and EnviroResolutions (collectively, the "Debtors"). Pursuant to the terms of the debt settlement agreement, we agreed to release and waive all obligations of the Debtors to repay debts, in the aggregate of \$293,406 and CAD\$38,079, to us and agreed to return an aggregate of 88,876,443 (as of June 30, 2015, 22,171,332 common shares of EnviroTechnologies remain to be returned) common shares of EnviroTechnologies to EnviroResolutions. As consideration for this release and waiver and return of shares, the Debtors agreed to transfer all rights, interests and title to certain intellectual property, the physical embodiments of such intellectual property, and to the supplemental agreement dated March 5, 2013 among EnviroResolutions, PREL and Green Energy Parks Limited ("GEPL") (collectively, the "Debtors' Assets").

The Debtors' Assets include the intellectual property rights throughout most of the world for the ENVI-Clean™ system, the ENVI-Pure™ system and the ENVI-SEA™ scrubber. The ENVI-Clean™ system removes most of the sulphur dioxide, particulate matter, greenhouse gases and other hazardous air pollutants from the flue gases produced by the combustion of coal, biomass, municipal solid waste, diesel and other fuels. The ENVI-Pure™ emission system combines the ENVI-Clean™ highly effective patent-pending wet scrubbing technology with an innovative wet electrostatic precipitator and a granular activated carbon adsorber to remove particulate matter, acid gases, regulated metals, dioxins and VOCs from the flue gas to levels significantly below those required by strictest international regulations. The ENVI-SEA™ scrubber can be applied to diesel exhaust emissions that require sulphur and particulate matter abatement. Using seawater on a single-pass basis as the scrubbing fluid in combination with its patent pending scrubbing head will provide a highly interactive zone of turbulent mixing for absorption of SO₂, particulate matter and other pollutants from the engine's exhaust.

The following is a brief description of further terms and conditions of the debt settlement agreement that are material to our company:

1. We pay 25% of all funds, if any, received under the supplemental agreement to the Debtors within 14 days upon receipt of funds, if any, pursuant to the supplemental agreement;
2. We enter into definitive agreements with the Debtors to:
 - a. license the Debtors' Assets back to the Debtors, under arm's length commercial terms, for use in the USA and Canada, with the exception of NRG Energy, Inc. and Edison Mission and affiliates; and
 - b. have the Debtors provide engineering services to us on terms to be agreed upon, acting reasonably;
3. The Debtors pay pro-rata any third party broker fees and legal fees, if any, that are subsequent costs associated with the Supplemental Agreement; and
4. the Debtors retain possession of, yet make a pilot-scale scrubber available for rental to our company at a nominal cost.

The Peterborough Plant has full planning permission at 79MWe and environmental agency permits. It is understood that the Peterborough Plant will be built in two stages at a total capital cost of approximately GBP£500 million (approximately \$824,534,442). The note is convertible into shares of common stock 180 days after the date of issuance (December 12, 2014) until maturity at a conversion rate of 75% of the average closing bid prices of our company's common stock for the 45 days ending one trading day prior to the date the conversion notice is sent by the holder to our company. As at June 30, 2015, our company recorded accrued interest of \$nil (March 31, 2015 - \$7,092), which has been included in accounts payable and accrued liabilities.

Our company analyzed the conversion option under ASC 815, "Accounting for Derivative Instruments and Hedging Activities", and determined that the conversion feature should be classified as a liability and recorded at fair value due to there being no explicit limit to the number of shares to be delivered upon settlement of the conversion option. In accordance with ASC 815, our company recognized the intrinsic value of the embedded beneficial conversion feature of \$9,793. On December 12, 2014, the note became convertible resulting in our company recording a derivative liability of \$9,793 with a corresponding adjustment to loss on change in fair value of derivative liabilities. During the three months ended June 30, 2015, our company had amortized \$1,637 (2014 - \$nil) of the debt discount to interest expense. On May 4, 2015, the Company issued 459,418 common shares for the conversion of \$100,000 of this debenture and \$7,796 of accrued interest. As at June 30, 2015, the carrying value of the debenture was \$nil (March 31, 2015 - \$98,363) and the fair value of the derivative liability was \$nil (March 31, 2015 - \$124,703).

On June 30, 2015, through our wholly owned subsidiary, Pacific Green Energy Parks Limited, we purchased all of the issued and outstanding shares in Pacific Green Technologies Asia Limited for \$1.00 from Alexander Shead.

We entered into an agreement dated July 20, 2015 with Mr. Alexander Shead. Pursuant to this agreement, Mr. Shead has agreed to serve as a director of our company. As a director of our company, Mr. Shead shall be compensated \$1,000 for every calendar month of the term of the agreement. The term of the agreement is for 12 months. On July 20, 2015, we appointed Mr. Shead as a director of our company.

Results of Operations

The following summary of our results of operations should be read in conjunction with our unaudited interim consolidated financial statements for the three months ended June 30, 2015 and 2014.

Our net loss for the three month periods ended June 30, 2015 and 2014 are summarized as follows:

	Three Months Ended June 30,	
	2015	2014
Amortization of intangible assets	\$ 218,954	\$ 531,605
Consulting fees	\$ 146,250	\$ 226,541
Foreign exchange loss (gain)	\$ 69,149	\$ (144,193)
Office and miscellaneous	\$ 16,266	\$ 12,484
Professional fees	\$ 40,904	\$ 56,743
Transfer agent and filing fees	\$ 11,287	\$ 1,782
Travel	\$ 1,731	\$ 19,499
Gain on extinguishment of debt	\$ (171,501)	\$ Nil
Impairment of goodwill	\$ 126,782	\$ Nil
Interest expense	\$ 339,717	\$ 348,892
Loss on change in fair value of derivative liabilities	\$ 1,057,818	\$ Nil
Net Loss	\$ (1,857,357)	\$ (1,341,739)

Expenses for the three month period ended June 30, 2015 were \$504,541 as compared to \$992,847 for the three month period ended June 30, 2014. Consulting fees were comprised of fees paid to the director of our subsidiary, Pacific Green Technologies Limited; professional fees were comprised of legal, audit and accounting costs. The decrease in operating expenses is primarily decreases in amortization of intangible assets, consulting fees, foreign exchange loss, professional fees, and travel expenses, offset by increases in office and miscellaneous and transfer agent and filing fees.

For the three month period ended June 30, 2015, our company had a net loss of \$1,857,357 (\$0.11 per share) compared to a net loss of \$1,341,739 (\$0.08 per share) for the three month period ended June 30, 2014. In addition to the operating expenses noted above, for the three month period ended June 30, 2015, our company had interest expense of \$339,717 as compared to interest expense of \$348,892 for the three month period ended June 30, 2014. The increase in net loss is attributed to increases in loss on change in fair value of derivative liabilities and impairment of goodwill, offset by increase in gain on extinguishment of debt.

	Three Months Ended June 30, 2015	Three Months Ended June 30, 2014
Net cash used in operating activities	\$ (338,448)	\$ (397,062)
Net cash provided by investing activities	\$ 50,064	\$ Nil

Effect of foreign exchange	\$ 44,850	\$ 133,609
Net increase (decrease) in cash	\$ 316,895	\$ (113,564)

As of June 30, 2015, we had \$318,165 in cash, \$340,049 in total current assets, \$10,319,321 in total current liabilities and a working capital deficit of \$9,979,272. As of March 31, 2015, we had a working capital deficit of \$9,952,416.

We are dependent on funds raised through equity financing and proceeds from shareholder loans.

During the three months ended June 30, 2015, we spent \$338,448 on operating activities, whereas \$397,062 was spent on operating activities for the three month period ended June 30, 2014. The decrease in our expenditures on operating activities during the three months ended June 30, 2015 was primarily due to decreases in amortization of intangible assets.

During the three months ended June 30, 2015, we used \$50,064 in investing activities, whereas we used \$Nil from investing activities during the three months ended June 30, 2014.

During the three months ended June 30, 2015, we received \$560,429 from financing activities, which consisted of \$650,000 in proceeds from share subscriptions received, \$15,573 in proceeds from related parties, offset by \$105,144 in repayments made to related parties, whereas we received \$149,889 from financing activities during the three months ended June 30, 2014.

We will require additional funds to fund our budgeted expenses over the next 12 months. These funds may be raised through, equity financing, debt financing, or other sources, which may result in further dilution in the equity ownership of our shares.

We anticipate that our cash expenses over the next 12 months (beginning July 2015) will be approximately \$825,000 as described in the table below. These estimates may change significantly depending on the nature of our business activities and our ability to raise capital from our shareholders or other sources.

Anticipated Cash Requirements

We will require additional funds to fund our budgeted expenses over the next 12 months. These funds may be raised through, equity financing, debt financing, or other sources, which may result in further dilution in the equity ownership of our shares.

We anticipate that our cash expenses over the next 12 months (beginning July 2015) will be approximately \$825,000 as described in the table below. These estimates may change significantly depending on the nature of our business activities and our ability to raise capital from our shareholders or other sources.

Description	Estimated Expenses (\$)
Legal and accounting fees	200,000
Marketing and advertising	25,000
Investor relations and capital raising	50,000
Management and operating costs	125,000
Salaries and consulting fees	350,000
General and administrative expenses	75,000
Total	\$ 825,000

Our general and administrative expenses for the year will consist primarily of transfer agent fees, bank and interest charges and general office expenses. The professional fees are related to our regulatory filings throughout the year and include legal, accounting and auditing fees.

Based on our planned expenditures, we will require approximately \$825,000 to proceed with our business plan over the next 12 months. As of June 30, 2015, we had \$318,165 cash on hand. If we secure less than the full amount of financing that we require, we will not be able to carry out our complete business plan and we will be forced to proceed with a scaled back business plan based on our available financial resources.

We intend to raise the balance of our cash requirements for the next 12 months from private placements, shareholder loans or possibly a registered public offering (either self-underwritten or through a broker-dealer). If we are unsuccessful in raising enough money through such efforts, we may review other financing possibilities such as bank loans. At this time we do not have a commitment from any broker-dealer to provide us with financing. There is no assurance that any financing will be available to us or if available, on terms that will be acceptable to us.

Even though we plan to raise capital through equity or debt financing, we believe that the latter may not be a viable alternative for funding our operations as we do not have sufficient tangible assets to secure any such financing. We anticipate that any additional funding will be in the form of equity financing from the sale of our common stock. However, we do not have any financing arranged and we cannot provide any assurance that we will be able to raise sufficient funds from the sale of our common stock to finance our operations. In the absence of such financing, we may be forced to abandon our business plan.

Going Concern

These consolidated financial statements have been prepared on a going concern basis, which implies the Company will continue to realize its assets and discharge its liabilities in the normal course of business. The continuation of the Company as a going concern is dependent upon the continued financial support from its shareholders and note holders, the ability of the Company to obtain necessary equity financing to continue operations, and ultimately the attainment of profitable operations. As at June 30, 2015, the Company has not generated any revenues, has a working capital deficit of \$9,979,272, and has an accumulated deficit of \$54,541,919 since inception. These factors raise substantial doubt regarding the Company's ability to continue as a going concern. These consolidated financial statements do not include any adjustments to the recoverability and classification of recorded asset amounts and classification of liabilities that might be necessary should the Company be unable to continue as a going concern.

Off-Balance Sheet Arrangements

We have no significant off-balance sheet arrangements that have or are reasonably likely to have a current or future effect on our financial condition, revenues or expenses, results of operations, liquidity, capital expenditures or capital resources that are material to stockholders.

Financial Instruments

ASC 820, "Fair Value Measurements and Disclosures" requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 establishes a fair value hierarchy based on the level of independent, objective evidence surrounding the inputs used to measure fair value. A financial instrument's categorization within the fair value hierarchy is based upon the lowest level of input that is significant to the fair value measurement. ASC 820 prioritizes the inputs into three levels that may be used to measure fair value:

Level 1

Level 1 applies to assets or liabilities for which there are quoted prices in active markets for identical assets or liabilities.

Level 2

Level 2 applies to assets or liabilities for which there are inputs other than quoted prices that are observable for the asset or liability such as quoted prices for similar assets or liabilities in active markets; quoted prices for identical assets or liabilities in markets with insufficient volume or infrequent transactions (less active markets); or model-derived valuations in which significant inputs are observable or can be derived principally from, or corroborated by, observable market data.

Level 3

Level 3 applies to assets or liabilities for which there are unobservable inputs to the valuation methodology that are significant to the measurement of the fair value of the assets or liabilities.

Our financial instruments consist principally of cash, VAT receivable, loan receivable, amounts due from and to related parties, accounts payable and accrued liabilities, loan payable, convertible debentures, and note payable. With the exception of long-term note payable, the recorded values of all other financial instruments approximate their current fair values because of their nature and respective maturity dates or durations.

The following table represents assets and liabilities that are measured and recognized at fair value as of June 30, 2015, on a recurring basis:

	Level 1 \$	Level 2 \$	Level 3 \$	Total gains (losses) \$
Cash	318,165	–	–	–
Derivative liabilities	–	–	–	(1,057,818)
Total	318,165	–	–	(1,057,818)

During the period ended June 30, 2015, the Company recognized a loss on change in fair value of derivative liabilities of \$1,057,818.

Recent Accounting Pronouncements

The Company has implemented all new accounting pronouncements that are in effect and that may impact its consolidated financial statements and does not believe that there are any other new accounting pronouncements that have been issued that might have a material impact on its financial position or results of operations.

Evaluation of Disclosure Controls and Procedures

We maintain disclosure controls and procedures that are designed to ensure that information required to be disclosed in our reports filed under the *Securities Exchange Act of 1934*, as amended, is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms, and that such information is accumulated and communicated to our management, including our president (our principal executive officer, principal financial officer and principal accounting officer) to allow for timely decisions regarding required disclosure.

Changes in Internal Control over Financial Reporting

During the period covered by this report, there were no changes in our internal controls over financial reporting that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II – OTHER INFORMATION

Item 1. Legal Proceedings

Except for below, we know of no material, existing or pending legal proceedings against our company, nor are we involved as a plaintiff in any material proceeding or pending litigation. There are no proceedings in which any of our directors, officers or affiliates, or any registered beneficial shareholder, is an adverse party or has a material interest adverse to our interest.

On November 14, 2013, a shareholder holding one common share in our company (the “**Plaintiff**”) commenced an action against us, as a nominal defendant, and PGG for recovery of short-swing profits (the “**Action**”) under section 16(b) of the Securities Exchange Act of 1934, as amended (“**Section 16(b)**”). The Plaintiff alleges that PGG, a shareholder of our company of more than ten percent, profited from the purchase and sale of our stock within a period of less than six months.

1. 37,778 shares of common stock at \$4.00 per share on July 22, 2013;
2. 62,600 shares of common stock at \$3.00 per share on August 9, 2013;
3. 6,000 shares of common stock at \$4.00 per share on September 17, 2013; and
4. 210,834 shares of common stock at \$3.00 per share on September 24, 2013.

On August 27, 2013, PGG acquired 2,237,929 shares at a deemed value of \$0.001, being our common share par value, pursuant to a share exchange with shareholders of EnviroTechnologies. The Action states that, pursuant to Section 16(b), the alleged total short-swing profit is \$1,035,086.79 and must be disgorged to our company.

As our company declined to pursue a claim against PGG under Section 16(b), the Action was brought on behalf of our company by the Plaintiff. This action was commenced in the United States District Court in the Southern District of New York.
